**Creative Food is a
Serious Business**

A Mini Manufacturing Kitchen

The Food Pod has a mini-manufacturing catering kitchen giving you access to industrial standard, eco and sustainable food production equipment. With our kitchen you can look forward to cutting your cooking times by 45 percent.

Designed to meet EOH, food science, Salsa and supermarket standards, the Food Pod Kitchen comes complete with cold and ambient storage facilities and includes a software tracking system for all goods produced.

The Food Pod is available on a daily rental/ lease basis, allowing small food businesses, budding entrepreneurs, community groups and "start-ups" the facility to produce up to 1500 units of product in a short time frame.

Especially suited to producers of jams, chutneys, sauces, soups, and high quality artisan condiments, the Food Pod also offers a readymade sales and marketing support system which gives your product further exposure. Training is given before use of the kitchen and all users must have a basic hygiene certificate.

To discover more about our Food Pod Baking Kitchen, Dairy Kitchen and Demonstration kitchen please visit www.foodpod.co.uk.

Creative Food is a Serious Business

Welcome to the Food Pod Company, an affordable and innovative specialist Food Service Company offering a programme designed to lift your products and productivity to the next level.

As a home or farm based producer of cottage foods and fine artisan produce you know how hard it is to produce quality product in a domestic environment. We have solved your problem with the Food Pod Kitchen.

Getting you Started the Right Way

Sales and Marketing

The Food Pod Company has high level contacts within the leading markets, supermarkets and artisan shops in Ireland, the UK and the USA. For a small fee we can showcase your products to the buyers who matter. We also encourage "celebrity chefs" to endorse your product.

Food Service Consultancy

With over 30 years experience in the food and hospitality industry, Tina O'Hagan is an expert in her field. As the Food Pod Company founder, Tina offers specialist advice to all parts of the food, drink and hospitality industry including public sector bodies.

A leading edge industrial kitchen designer, sales mentor and platinum Certified Foodservice Professional Tina devotes her special interest to business "start-ups" and SME's who require a "turnkey" approach on their food production journey.

From incubation to fruition, Tina O'Hagan's consultancy services provide direction and encouragement with product and growth strategies to bring inspirational ideas to viable marketable realities.

Food Waste Management Consultancy

The Food Pod Company food waste management consultancy service advises you on the best food waste to resource equipment and services. These systems can be integrated at a low cost, into your business.

We can also create a manual and app for staff in relation to recording and reducing waste. Training is available on how to monitor waste and eliminate what gets sent to landfill.

Compostable Food Packaging

To maintain your "green" credentials and reduce land fill to an absolute minimum, The Food Pod Company supplies a wide range of high quality compostable products made out of corn starch and sugar cane, including coffee cups, plates, bowls, clam shells, salad boxes and sandwich cartons. We also supply sauce containers made from recycled plastic and disposable cutlery and napkins from vegetable waste.

Food Pod Community

Joining our food pod community gives you the chance to meet new members, network, exchange ideas and work in co-operation with each other to craft new products for the food pod brand.

Our Ethos is to work in a creative, co-operative and collaborative way that all members can share, and see that creating food is a serious business.
